## RESUME OF GERALD GERARD BROWN

Gerald G. Brown was born on 21 January 1946, in Hollywood, California. He received his B.A. (1968) and M.B.A. in quantitative methods (with highest honors) (1969) from California State University, Fullerton, where he was named Outstanding Graduate Student.

He earned the Ph.D. (1974) from the University of California, Los Angeles. He majored in operations research and minored in computer science, mathematics, and statistics.

In July 1973, he joined the Naval Postgraduate School Department of Operations Research and Administrative Sciences. He has been appointed Associate Professor of Operations Research and Computer Science (1975) and Professor of Operations Research (1981).

At the Naval Postgraduate School, Professor Brown has been named the Outstanding Teacher (1976) and has received the Menneken Research Award from Sigma Xi (1982).

His research and consulting interests focus on large scale mathematical programming. He has published numerous papers and is a director of Insight, Inc., an international technical consulting company specializing in design of management support systems exploiting these research results in industrial application. Several of these contributions have been mentioned for research and achievement awards.

He is a member of the American Institute of Industrial Engineers, the American Statistical Association, Association for Computing Machinery, Mathematical Programming Society, Operations Research Society of America, and the Institute for Management Sciences.
