Sajid Ali

Lead Software Engineer, Full stack (.NET | MERN)
Lahore District

Summary

I'm a passionate and pragmatic software engineer with 10 years of professional experience, specializing in full-stack development using Microsoft Technologies on the backend. Strong in object-oriented analysis and design and experience with a wide range of front-end and back-end frameworks. I can assist in all stages of the software development lifecycle and deliver working software with clean architecture and clean code.
