RESUME OF ELMO JOSEPH STEWART

Elmo J. Stewart was born in Salt Lake City, Utah on 2 November 1913. He attended the University of Utah, where he majored in mathematics. He received the degree of Bachelor of Science in June 1937.

Graduate study followed at the University of Utah where he received the degree of Master of Science in 1939. His research was done under the direction of Professor Anna A. Stafford in the field of Boolean Algebra.

Through the years 1939 to 1953, he taught mathematics at the Salt Lake City High Schools, did graduate work in mathematics at Princeton University, was an officer in the Signal Corps of the U. S. Army, and taught mathematics at the University of Utah.

In September 1949, on leave from the University of Utah, he pursued graduate study in mathematics at Rice Institute, Houston, Texas, and received the degree of Doctor of Philosophy in June 1953. His research was done under the direction of Professor F. E. Ulrich in the field of mathematical analysis (in particular, harmonic functions and complex variables).

From July 1953 to July 1955 he was a Mathematician and Consultant for Bendix Corporation and Professor of Mathematics at the California Polytechnic College.

In July 1955 he joined the faculty of the Naval Postgraduate School, Monterey, California, where he is teaching in the Department of Mathematics. His current research is concerned with numerical methods and applications of digital computers.

He is a member of the Mathematical Association of America and Sigma Xi.
