Top Skills

C++

Java

Python (Programming Language)

Languages

Arabic

English

Certifications

Structuring Machine Learning
Projects

Convolutional Neural Networks

Neural Networks and Deep Learning

Data Analysis Professional
Nanodegree Program

Improving Deep Neural Networks:
Hyperparameter Tuning,
Regularization and Optimization

Honors-Awards

ENTREPRENEURIAL IDEA
GENERATION CAMP

ICPC-programing competition

Sayed Goma

Machine Learning | Deep Learning Engineer

Helwan

Summary

I'm a student at the Faculty of Engineering, Helwan University, Computer Engineering department. I have worked professionally with C programming, Python Programming, and C++, I also have fair experience in data analyst, machine learning, and Deep Learning. and I participate in programming competitive Acpc contest

Experience

Emarat Al-Ard Research Centre for Sustainable Development

Machine Learning Engineer

June 2021 - Present (7 months)

London

Tasks :

- Develop programs in Python
- Investigate a dataset using Python data analysis
- collect data using selenium scraping
- Perform the entire data analysis process on a dataset
- gather data from multiple sources in a variety of formats

Education

Helwan University Cairo

Bachelor's degree, Computer Engineering · (October 2017 - June 2022)
