Summary

My objectives are to develop my skills and gain more experience. I am looking forward to be working in an architectural firm where I can continue gaining knowledge and developing the technical skills I have gained throughout my studies. My goal is to improve my career in order to gain a better chance at being a member of the team that will give me the opportunity for continued professional growth, also improving myself at all times as I believe one should never stop learning as it is the best way to become successful in the future. Therefore I always strive towards self development in all aspects.
