Ahmed Hesham

Machine Learning Engineer Intern at Information Technology Institute (ITI)
Alexandria

Summary

Currently, I am an intern of 9-months AI professional program at Information Technology Institute in Egypt in. A Theoretical background was built in data science and machine learning topics with strong mathematical base ,and being hands-on projects has given me an advantage when practicing in them.

I received a B.Sc.degree in electrical, communication, and electronics from Alexandria University in 2020. My major was mainly related to embedded systems and communication which allows me to build a strong background and hands-on experience in different programming languages, such as C and Python.

Have an exciting opportunity coming up ? I am currently seeking job opportunity!
