AI engineering - ML

Unique X
Data scientist
October 2020 - February 2021 (5 months)
مصر

Tanta refining plant
Automation Engineer
October 2015 - December 2015 (3 months)
tanta,egyp

----the first phase was academic ,

they teach use a bit of classic control and plc so they can tell us how

everything work one the

refining plant and what was the responsibility of the control engineer there

----the second phase was around the site ,

the workshops and the refinery itself , we learn how everything flow and what

is the

responsibility of every section of the site .
